Lesson outline	In this lesson, you will be dividing numbers into half and quarters. You will need to make sure that the numbers are shared equally between 2 or 4 groups.	In this lesson, you will learn what the different parts of a fraction means and use the mathematical names.	In this lesson, you will be dividing shapes into equal parts and also be able to say if a shape has been halved equally.	In this lesson you will divide squares into equal parts and identify one half, quarter or third of the square.	In this lesson you will identify unit and non-unit fractions within shapes. You will also label fractions of shapes and compare similarities and differences on a Venn diagram.	
Extra Notes	<ol style="list-style-type: none"> <li>1. Complete the talk task by answering the questions.</li> <li>2. Complete the independent task by answering the questions.</li> <li>3. Complete the exit quiz.</li> </ol>	<ol style="list-style-type: none"> <li>1. Complete the intro quiz</li> <li>2. Complete the talk task by answering the questions.</li> <li>3. Complete the independent task by answering the questions.</li> <li>4. Complete the exit quiz.</li> </ol>	<ol style="list-style-type: none"> <li>1. Complete the intro quiz</li> <li>2.
