	<b>Lesson outline</b>	In this lesson, you will use your knowledge of whole-number number bonds to solve decimal-number number bonds.	In this lesson, you will use mental calculation strategies to add and subtract decimal numbers.	In this lesson, you will represent hundredths using fractions and decimals and accurately read decimals hundredths.	In this lesson, you will represent hundredths using the visual representation of a bead string.	In this lesson, you will explore and identify common decimal equivalents (quarter, half and three quarters).
	<b>Extra Notes</b>	Make sure to complete the worksheet and exit quiz!	Make sure to complete the intro quiz, worksheet and exit quiz!	Make sure to complete the intro quiz, worksheet and exit quiz!	Remember what we have learnt at school about rounding. Make sure to complete the intro quiz, worksheet and exit quiz!	Make sure to complete the intro quiz, worksheet and exit quiz!
