Dear parent/guardian,

A pupil's first day or two of being educated remotely might look different from our standard approach, while we take all necessary actions to prepare for a longer period of remote teaching.

We teach the same curriculum remotely as we do in school wherever possible and appropriate. However, we have needed to make some adaptations in some subjects. We have matched our curriculum to the links chosen for online learning, ensuring the material is age appropriate and matches what we would be teaching in class as closely as possible. We expect that remote education (including remote teaching and independent work) will take pupils broadly between 3-4 hours a day.

To access our remote learning program please visit <https://www.allsaintsmat.school/stjohns> and follow the home learning tab, which will allow you to select the year group for your child's work and the lesson they are currently on via the timetable.

Children are instructed to watch the video via the link given for that specific day – this can be accessed by clicking on the lesson title - they will be instructed whether to record any notes or complete activities in a writing book (these are available for collection at the school office).

In order to support your child's learning, we ask that any quizzes or work completed in books is photographed/screenshot and emailed to your class teacher (email listed below). This will allow teachers to provide feedback on your child's work weekly. Where work is not submitted via email, support staff will check in, every few days, to check on children's progress.

If you need support with the use of the remote learning programme or any of the lessons, a member of staff is available between 9:00am and 12:15pm to help via phone call. Please call the school office to be put through to your child's year group.
