We had a Fantastic **WORLD BOOK DAY**

EYFS

Welcome back to our parents and children. We hope you had a lovely and half term holiday. We have had an exciting week this week. The children have started a new topic all about life cycles. Next Monday our chicks arrive and the children will be able to watch them hatch from eggs into chicks. We are all very excited about this. We are doing lots of writing based around life cycles and are so pleased with how the children are coming on.

Please can your child always bring in a warm coat. The weather is still cold and we try and take the children outside as much as possible. Please remember your child's reading book too. We are reading with your child every week but it really helps if you read with them too. A gentle reminder about PE kits, please make sure your child has one. It's easier if they stay in school for the half term, please make sure they're named.

KS1

Welcome back to another school term. We have had an exciting week full of activities. The children have visited the church as part of our LIEP and religious education. They had chance to explore the building and discuss the different features and artefacts.

World book day was fantastic this week. The children looked amazing in their costumes! Thank you for the effort that you made to ensure that your child was dressed as a book character. On world book day, the children took part in a workshop led by an illustrator from Beano. As well as taking part in a workshop led by an actor. They loved it!

Bible Verse of the Week

“Be strong and courageous. Do not be afraid; do not be discouraged, for the Lord your God will be with you wherever you go.”

Joshua 1:9

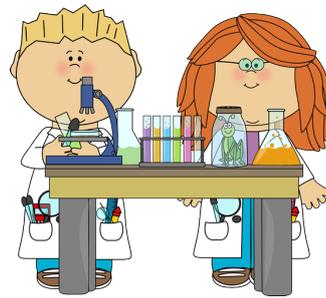

LKS2

This week we have been learning all about the different parts of plants. We have started an experiment to investigate the different conditions needed to grow. Next week we will be looking at the life cycle of plants and investigating how water is transported up the stem.

UKS2

The children have really enjoyed their science topic 'marvellous mixtures' and have been learning how to separate materials using home made sieves, funnels and other material.

Information from the office

Parking

Children need to be able to enter into the school with clear visibility, please do not park in front of the gates. . There are large yellow zigzag lines marking clearly that a no parking area. Please drop off your children across the road and accompany them safely into the school.

Lunch Boxes and Snacks

Please can all parents make sure that their child has a healthy meal and drink for school. No fizzy drinks, juice, chocolate or sweets please.
